Origin Australian
Resident London, UK

Profile

I was awarded a 1st in BA (Hons) Graphic Design: New Media Degree at the Epsom campus of The University College of the Creative Arts.

Here I majored in illustration and had the opportunity to develop a style which reflects my interest in the grotesque, surrealism and black comedy. I like playing with people's emotions, notions of reality, and the idea of taboos. My images are vibrant, symbolic / shambolic bold vector illustrations, hopefully they speak for themselves.

My 'Self Portrait' illustration project won first prize in its category in the 2008 'D&AD Student Awards'. This work was also featured in the 'D&AD New Blood Design 2008' exhibition and part of a presentation I gave at 'Pecha Kucha'.

I have been working in the BBDO advertising network since 2009 in the Art Production / Art Buying department. I have done work experience in several departments, team assisting and am currently a Junior Art Producer on print campaigns commissioning and producing photography / illustrations for brands such as Arla, BT, Clarks, East Coast Trains, Famous Grouse, Sainsbury's, Mars and so on.
